Jocelyn Barrios

Providence, RI · jocelyn.barrios@example.com · (401) 555-0172 · linkedin.com/in/example-jocelyn-barrios

My Key Qualifications

- Current clinical research experience at **Lifespan**, supporting oncology and neurology studies in an academic medical setting since August 2025.
- Screened and scheduled participants across 3 active studies, helping **enroll 26 participants in 12 months** through Epic chart pre-screening and visit coordination.
- Cut monthly **data query volume from 11 to 4** by verifying source documents before entry in REDCap and sponsor EDC systems.
- Processed and logged **148 biospecimens with zero mislabeled shipments**, following chain-of-custody and labeling procedures with the lab team.
- Maintains regulatory binders and prepares study materials per protocol and SOPs, with **CITI Human Subjects Research** certification (2025).
- Chart review and literature search experience from a neurology feasibility capstone, reviewing **120 records** to identify 38 eligible cases.

Experience

Clinical Research Assistant — **Lifespan**, Rhode Island health system and academic-affiliated hospital network

Aug 2025 – Present · 1 yr 3 mos

- Supported participant recruitment and visit scheduling across 3 active oncology and neurology studies, helping enroll 26 participants in 12 months by pre-screening charts in Epic and coordinating appointment reminders with study staff and patients.
- Improved accuracy of study data entry for follow-up visits, reducing monthly data query volume from 11 to 4 by verifying source documents before entry and completing same-week checks in REDCap and the sponsor EDC.
- Maintained chain-of-custody documentation for blood and saliva biospecimens, processing and logging 148 samples with zero mislabeled shipments alongside the lab team.

Education

- **University of Rhode Island** — Bachelor of Science in Public Health · 2021 – 2025 · Relevant coursework: Epidemiology, Biostatistics, Research Methods, Health Data Management, Medical Sociology

Projects

- **Neurology Clinic Feasibility Review**

Sample resume made with Specific Resume · specificresume.com

Chart review and literature search for a faculty-led capstone assessing recruitment feasibility for a proposed outpatient neurology study. Reviewed 120 records and identified 38 potentially eligible cases for follow-up feasibility planning.
Tech: Epic, Microsoft Excel, PubMed

- **Community Screening Data Summary**
  Cleaned and summarized de-identified health screening data for a local nonprofit's community outreach report. Produced descriptive statistics and charts for 214 screening records used in the final board presentation.
  Tech: Microsoft Excel, SPSS, PowerPoint

Skills

- **Clinical Systems & Data Tools:** REDCap, Epic, Sponsor EDC Systems, SPSS, Microsoft Excel, Microsoft Word, Microsoft Outlook, PowerPoint
- **Clinical Research Methods:** Participant Screening & Scheduling, Regulatory Binder Maintenance-, Biospecimen Handling & Chain of Custody, GCP & Informed Consent Support, Source Document Review, Chart Review, PubMed Literature Search

Certifications

- **CITI Human Subjects Research** – CITI Program (2025)
